For more information about Cascade365, please click [here](#).

### ***Excerpts from a conversation with Lee Brockett, Managing Director, J.D.***

Lee Brockett is the Managing Director and owner of the Cascade365 family of companies. Cascade365 provides accounts receivable liquidity solutions to the healthcare industry. Cascade365's suite of products and services include AR purchase and finance, master servicing and third-party collections, and revenue cycle optimization. The Cascade365 family of companies believes in promoting financial accountability while treating patients in a fair, dignified, and lawful manner. Lee has over 15 years of experience in the accounts receivables management, specialty finance, technology, and fund management industries. Cascade is heavily invested in technology and has developed and administers a proprietary vendor portal to enable greater efficiencies in performance and compliance oversight. The portal encompasses complaint tracking and resolution, lawsuit tracking and resolution, maintenance of licenses and legal documents, a document management and delivery system, exception reporting and transaction processing.

Mr. Brockett decided to join EDPMA as more than one client encouraged him to take a look at the association. Lee said that he "always wants to align the mission of his organization to advance his clients' needs." Lee understands the value of staying up-to-date on issues that matter to his clients. He believes that the association can act as a central resource to his clients. He views EDPMA's extensive information capabilities (monthly newsletters, weekly ED updates, advocacy alerts and more), as a cost-effective and efficient means of staying informed and up-to-date on the latest challenges in emergency medicine. He also values the educational opportunities including the workshops, webinars, and toolkits.

Mr. Brockett recognizes that, in the healthcare field, the changes are continuing and even accelerating. There are challenges in insurance coverage and the duties and requirements of emergency physicians. He notes there is an increasing percentage of patients who are responsible for their own payments (rather than a third party) and this is adding new challenges to the industry.

The Cascade365 family of companies is a Corporate Silver Sponsor, providing year-round support for EDPMA and its mission. He is looking forward to attending the next Solutions Summit (April 29-May 2) in Fort Lauderdale, FL. Lee also joined the

Membership Committee.

Lee has three young children and enjoys youth sports, travel, learning about new cultures and the farm-to-table movement. He is a proud alumnus and fan of the University of Oregon Ducks!
